

Our Sympathy Collection

funeral flowers
lovingly created by

Our florists at

Our Sympathy Collection

This collection has been carefully created to demonstrate a range of designs, options and inspiration to help you choose the right flowers at this sensitive time.

You may choose directly from these pages or our experienced florists will be happy to help you create a bespoke design. Using their years of experience and your own input to design your own unique piece, we can produce anything from petite and dainty to robust and masculine.

We take great pride in our funeral work and only ever use top grade flowers so each piece is lovingly created just for you.

We now offer an additional service designed to cater for the funerals of keen gardeners.

Here at Woodbank Nurseries we appreciate how special one's own garden is to someone. You design, plant, and nurture your garden and it becomes a special place that you call your own. It provides a haven for peace, rest, and tranquility along with treasured memories of why certain plants and flowers have been grown and what they mean to each individual gardener.

Because of this we now offer a service where we can visit the garden of a loved one, and with family guidance, carefully choose plants and flowers from their own garden to create a funeral tribute especially designed for them. A final loving tribute to a gardener's hard work, love, and devotion to their special place.

This service can only be offered locally, and of course, we can only use flowers in season and of acceptability.

The costs will be comparable to the costs for a coffin spray as shown in this book.

Sheaves and single ended sprays

Our sprays and sheaves are available in a wide range of styles, colours and sizes designed to suit your specific requirements.

Single ended sprays are teardrop shaped and smaller than a casket spray. Two of these can fit on a coffin or just one if the family want a more low key display.

Hand tied sheaves can be split and used after the funeral if the family wish to keep them.

Tied sheaf

Simply stunning. Lily sheaf, approx 1m (3ft) long and heavy.

£200

CS_25

Personalised casket spray

All designs can be tailor-made for the deceased's personality and interests.

CS_27

Eco casket spray

Introducing a unique wooden box designed to be planted and placed on a casket. Available for rent at £40, this shallow wooden box provides a beautiful and meaningful addition to any funeral arrangement. To complete the look, we also use fresh blanked moss to hide the pots.

Now comes the fun part - selecting the plants that will be arranged in the box. Each plant is individually priced, allowing you to tailor the selection to your preferences. Our skilled florists will take care of arranging the flowers for you, ensuring a stunning display.

To make things even easier, the plants are kept in their pots, making it a breeze to take them home and plant them. Once you're finished, simply return the box to our florists.

Posies & wreaths

A wreath is a very traditional funeral tribute. Circular, up to 16 inches in diameter.

A posy is round and dome shaped. It can be a tiny 8 inch posy from the grandchildren or a large woodland garden up to 16 inches in diameter.

Seasonal posy

Posies are available in a colours of your choosing. Our florists will be happy to advise on what is seasonally available.

This posy includes roses as the main flower.
